MONEY. STOCKS AND GRAIN

New York Securities Weaker, Due Principally to Heavy Liquidation.

Business on 'Change Partially Relieved Before the Close by the Better Bank Statement -Indianapolis Grain Receipts.

THE BOND MARKET.

Railway Issues Weak and Depressed or Sales of \$477,000.

At New York, Saturday, money on call was easy at 4 per cent.

Prime mercantile paper, 8@12 per cent. Sterling exchange was dull and featureless, with actual business inbankers' bills at \$1.814 @4.8212 for sixty days, and \$4.8312 @4.84 for demand.

Silver certificates were neglected. No sales were reported at the Stock Exchange to-t'ay. London bar silver yesterday was 32 sd.

The security market was weaker Saturday morning than at any time since the present downward movement set in and many stocks and bonds touched the lowest figures yet made. The depression was due to the heaviness of the Loudon market and renewed activity on the part of the bears and heavy liquidation. The bank failures at Milwaukee added to the depression. Erie was notably weak, the common breaking to 1034 and the preferred to 25, while the consol seconds fell to 64. These bonds brought 81 on Monday last. The steady shrinkage in the securities led to a revival of the talk about a receivership for the property, but officials of the company claim to have no knowledge that such a thing is contemplated. It is understood that the company's floating debt is becoming burdensome. The grangers were freely sold, St. Paul falling to 51%, North west to 95, Rock Island to 574, and Quincy to 75%. The other important declines were 11/2 in General Electric, to 471/2; 11/2 in Sugar, to 714; 2 in Lake Shore, to 114; 14 in Lackswanna, to 13712; 214 in Big Four, to 3414; 118 in Lead, to 23. The decline was checked by the favorable bank statement, which shows a gain in reserve of \$3,012,550. The banks are still \$1,256,550 below the legal requirements. This showing induced the bears to turn paper profits into cash, and a general rally of to 2 per cent. took place. The market left off firm. The sales, aggregated 153,568 shares, of which 15,217 were unlisted.

Railway bonds were weak and depressed Erie consol seconds were especially weak, falling from 69 to 63. General Electric declined 1, to 67, and later sold at 70; Baltimore & Ohio fives sold down 112, to 108; Chicago & Erie incomes 2, to 25; Edison Illuminating firsts 1, to 101; Richmond Terminal fives, trust receipts, 1, to 19. The transactions footed up \$477,000.

Government bonds were steady, and State bonds were dull. Closing quotations

The bank statement		

he bank statement shows the followin changes: Circulation, increase 129,000 The banks are now \$1,256,550 below the

requirements of the twenty-five-per-cent. LCCAL GRAIN AND PRODUCE.

Trade Dull, but Not More so than Expected-Prices in Some Lines Unsettled.

Trade in the week closing July 22 was very quiet, but not more so than had been anticipated with genuine summer weather and a tight money market. In a number of lines prices carry an easy tone. This remark will apply to dry goods, hardware, hides, leather and produce. Firm prices lead in staple groceries, provisions, and fruits of the season, watermelons and ba-Danas excepted. It is seldom that the wholesale streets present so quiet an appearance as during the past week. Traveling salesmen report the country merchants cheerful, but afraid to purchase large bills until it is better known what the tarmers are to get for their crops. Receipts of eggs and poultry are large for the season and fortunately there has been a good Eas ern demand which has kept prices higher than usual. Vegetables are in better supply, but do not decline as the increasing supply would indicate. It seems difficult to get any choice stock in the way of peaches and apples. Irish potatoes as a rule are of excellent quality.

The local grain market would be active if tarmers would sell their wheat at present prices. The receipts of corn are fair. and cars are coming in more freely. Indisnapolis elevators Saturday contained 107 .-200 bushels of wheat, against 99,886 for the corresponding date last year; 11,000 busnels of corn, against 10,:00 last year; 15,000 bushels of oats, against 14,500 last year. Track bids yesterday ruled as follows:

WHEAT STOOD THE STRAIN

Bank Failures and General Depression Overcome by Chicago Bulls.

Exports of Wheat for the Week Reached the Enormous Total of 5,077,000 Bushels, and a Big Decrease in Visible Is Expected.

TRADING AT CHICAGO.

Corn and Oats Higher, but Provisions Were

Weaker and Declined. CHICAGO, July 22.- The wheat and corn market struggled against breaking banks to-day and emerged smiling with a gain of be sticking to wheat and le to corn. Very bad reports of the outturn of the oat threshings gave that market a lively hoist also. The weak sister among the speculative markets was provisions, which declined, although hog receipts were light. The heavy exports of wheat, amounting for the week to the enormous total of 5,077,000 bushels, make the chief element of strength. The market at the opening was about 40 so higher, and advanced se more, then became weak and, with slight nuctuations, declined about %c, rallied again and the closing was firm at the top price of the day. The market opened up strong on the big clearances for the week, but weakened off on the bank failures reported at Milwankee. The losing was strong on an increased export business here, some 213,000 bushels being taken. Operators were not disposed to sell wheat freely at the current prices, and there seemed to be fair buying at around 66e for September. Shorts seemed to be covering. It was estimated that the visible supply would show a decrease of about 2,000,000 bushels. Advices from points in the winter-wheat districts say that farmers are stacking their wheat, and the movement will be

year ago. Corn was moderately active, with stronger feeling prevalent. The market opened at yesterday's closing figures, and soon sold up %c on good buying by some of the larger receiving concerns, some of whom were short. It is claimed that drought is commencing to work some injury in the central portion of this State and in northern Indiana and Ohio, but outside of these localities little complaint is heard. The weather caused shorts to feel uneasy and anxious, and many covered in consequence. The market, after the early upturn, went back 4c with the decline in wheat, but railed again, selling up 4@10, and closed with % @1 so gaiu. The withdrawais from store were again large at 563,770 bu, and a good cash demand

light. The receipts for the week at eight

primary points were 1,200,000 bushels

smaller than the corresponding week a

is said to prevail. There was a better feeling in oats, with offerings lighter and demand larger. Opening prices were near the bottom, except for May, and the close was steady at the top, with a net gain for the day of & @1c, September being the strongest. There was a better demand for shorts, owing to continued reports of rust in Iowa. The late strength in corn also helped the market. Provisions opened a little higher on smaller receipts of hogs than expected, but the bank news from Milwankee caused a

weak feeling. There was but little trading. At the close, compared with last night, pork was nominally unchanged, with lard .15c lower and ribs .0712c lower. Freights were dull at 1%@14c for corn to Buffalo. Estimated receipts for Monday are: Wheat, 140 cars; corn, 515 cars; oats, 250 cars; hogs, 21,00). The leading futures ranged as follows:

TRADE IN GENERAL

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points.

ST. LOUIS, July 22.—Flour was very quiet and easier, but prices unchanged. Wheat was strong despite the bank failures, decrease in exports and weather news, closing with a gain of 'sc: No. 2 red, cash, 58 2c; July, 57 so; August, 59c; September, 62%c. Corn was strong, September gaining 1e; No. 2 mixed, cash. 36%c; July, 374c; August, 364c; September, 36% @364c. Oats strong and higher; No. 2, cash, 25c; July, 24 4c; August, 22 4c; September, 22 sc. Kye -Nothing doing. Bran firm but prices unchanged. Hay-Old timothy scarce and firm at \$12@14; new in good supply. Butter and eggs steady and unchanged. Flaxseed steady at \$1.05. Corn meal, whisky, cotton bagging and iron cotton ties un-Pork, current make, \$16.75. Lard, 9,25c. Dry-salted meats—Loose shoulders, 7.50c; longs and ribs, 8.20c; shorts, 8.50c; boxed lots .15c more. Bacon-Packed shoulders, 9c; longs and ribs, 9.75c; shorts, 10.25c. Hams wheat, 11,000 bu; corn. 90,000 bu; oats, 9,000 bu. Shipments-Flour, 5,000 brls; wheat, 61,000 bu; corn, 119,000 bu; oats, 4,000 bu; rye, 1.000 bu.

MINNEAPOLIS, July 22.—There was a favorable feeling toward wheat to-day. The tendency at the opening was for an advance, but the bank troubles in Milwaukee came in and caused a break. Trade was heavy and the market narrow. July opened at 58c, and closed at the same. September opened at 614c, and closed at the same figure, with very little fluctuation. December opened at 674c, and closed at 674c. Cash wheat was steady, with sales of No. 1 Northern at 60@61c. The miliers were fair buy-ers. The receipts here to-day were 149 cars. and at Duluth and Superior, 210 cars. The following was the range of prices: July. highest, 58c; lowest, 56%c; closed at 58c; yesterday at 58c. August closed at 5512c; 614c; highest, 614@61'sc; lowest, 604c; closed at 614c: yesterday at 61c. December opened at 674c; highest, 674c; lowest, 66%c; closed at 67%c; yesterday at 67%c. On track: No. 1 hard, cash, 63c; No. 1 Northern, 60 c; No. 2 Northern, 58@59c.

PHILADELPHIA, July 22.—Flour was quiet and weak. Wheat quiet and a shade weaker; No. 2 red, July, 67% 68c; August, 686684c; September, 69% 6704sc; October, 71% @724c. Corn-The options market was firm under stronger reports from the West; local car lots dull and lower; No. 2 mixed, July, 463 @17c; August, 47@474c; September, 474@48c: October, 48@484c. Oats-Car lots tirm but quiet: futures dull; No. 2 white, July, 3814@3914c; August, 3234@ 8512c; September, 315 @82c. Butter and eggs unchanged. DETROIT, July 22.-The market closed about steady. Wheat-No. 1 white, 65120; No. 2 red. cash, 63%c; No. 3 red, 60%c; August, 64c; September, 664c; December, 75 2c. Corn-No. 2, cash, 40c. Oats-No. 2 white, 364sc; No. 2 mixed, 32c. Receipts-Wheat, 14,000 bu; corn, 2,000 bu; oats, 14,000

Dry Goods. NEW YORK, July 22 .- The demand for dry goods continues at the minimum so far as daily transactions are concerned. A case of dry goods at a time is taken every day or two by the same buyer rather than order enough to last a week or two. This is an extreme hand-to-mouth business, but there is enough of it to show that the consumption of fabries is going on steadily, and that dealers are short of stock, as every demand is for immediate shipment. There was to-day also more inqury for the near future, and some agents think that the situation is brightening manufacturing trade. Brown and cotton goods are without change. Other articles are more active in movement than demand in completion of former sales by delivery. The volume of sales charged up is fair, but orders for future delivery are in arrears of normal trade.

NEW YORK, July 22.-The petroleum market was neglected. Pennsylvania oil, spot sales none; August option, sales none; 57c bid. Lima oil, sales none: 35c bid. Turpentine easy

OIL CITY. July 22.—National Transit certifi-cates opened at 576; highest, 57½c; lowest, 57c; closing, 57c. Sales, 9,000 bris; clearances, 24,000 bris. PITTSBURG, July 22.-National Transit certificates opened at 57c; closed at 57c; highest, 57c; lowest, 57c. Sales, 5,000 brls. SAVANNAH, July 22 .- Spirits of turpentine

firm at 25c bid. Rosin firm at 90c. CHARLESTON, July 22.-Turpentine firm a 241ge. Rosin firm at 85c. ST. LOUIS, July 22.-Wool-Receipts to-day,

34,000 pounds; shipments, 102,000 pounds. Receipts this week, 524,000 pounds; shipments, 720,000 pounds. The market presents no new features, wool being slow of sale and everything in buyers' favor. Some Texas stock has been moved at buyers' terms. Quotations are un-Metals.

NEW YORK, July 22.-Pig iron quiet and steady; American, \$12.75@15.50. Copper steady; lake, 10.25c. Beneficial Effects of Line.

Philadelphia Record. It has long been known that while manore provides plant food, it also carries to the fields diseases of plants. The manure heap is the receptacle for all the refuse on the farm that is considered serviceable in any manner, and the vines of potators, stalks of grain, tender cuttings of plants and other substances are added to the heap, in which the spores exist, until they are epread broadcast over | dred miles Journals are delivered as the soil with the manure, rendering the land untit for producing healthy plants, though the injury may not be apparent until too late in the season to apply a remedy for the damage inflicted.

It is better, easier and cheaper to destroy disease in the beap than to battle with it during the growth of the plants. Experiments show that lime is an agent that may be used with advantage. First, if green or partially dry material that has been collected from the fields is compacted with lime and sufficient heat generated to quickly decompose the materials, the spores will be destroyed. when dry earth may then be added as an absorbent and to arrest the heat. Second, the manure in the beap may be turned over with a fork and the air-slaked lime sprinkled over it sufficiently to create heat, but the heap should be carefully regulated to prevent the creation or too high a temperature. The lime causes the temperature to rise by reason of its chemical action. during which salts are formed and the materials of the heap reduced. Lime also

destroys the spores by direct contact, owing to its caustic characteristics. It has been feared that the addition of lime to the manure heap causes a loss of ammonia, which is true, but this loss may be partially avoided by careful handling of the heap during the process of the decomposition of the materials. It is better to use a diluted quantity of sulphuric soid for the purpose of destroying spores, but it is not as safe to handle as lime. If a mixture of kainit and lime is used the loss of ammonia will be brought to a minimum. It is a question for discussion, however, whether the loss of ammonia, if any, cannot be sustained in the face of the fact that lime converts the manure into plant food in the shortest time and in the most compiete manner, as well as saving the loss of the crop by its effects on the heat in the destruction of diseases existing in the

A Horse for the Farmer's Family.

Lilian Mayne, in Country Gentleman. Now that the summer season has been reached when the women of the farmer's family spend many hours of the day in the hot, exhausting air of the kitchen, it is the farmer's duty to provide a gentle borse for the exclusive use of his wife and children. I know that many farmers will raise their hands in horror at this suggestion of extravagance, but the majority of sensible men will understand that such an investment will score many points on the profit side of the account.

Anything that improves the health and good nature of the family is a profitable investment, and nothing will so brighten a tired, discouraged woman as a drive through the life-giving woods on a warm day. The entire change of scene, the balmy air and the almost heavenly rest of such a drive cannot fail to quiet the overtaxed nerves and invigorate the whole system. If a horse cannot be devoted exclusively to the use of the wife and children there should be one that is employed on the farm a part of the day and placed at the disposal

of the family during the afternoon. I have observed farmers who are much more caresul of their horses than of their wives and daughters. A young girl friend of mine, who lives on a valuable farm, frequently walks into town, a distance of four miles, after a long morning spent in kitchen work. When I remonstrated with her on one hot day she said that although there were fourteen horses on the place, not one of them was at her disposal. Those she could drive were too tired. wondered if they were more weary than she looked. I also wondered how long a young woman of spirit would content herself on the farm under such conditions; also if she would be so unwise as to marry a farmer who would allow her to walk or work while his horses were resting. "A merciful man is merciful to his beast and he ought also be merciful to his wife

and children. After the value of turpentine has once been learned, ne woman who keeps house will ever be without a liberal supply of it. It is good for burns and corns; it heals sore throat; it is an excellent specific for theumatism, a sore preventive of moths, and will drive away ants, bugs and any other insects. A little poured in a bucket of warm water will clean paint better than soap, and a few drops added to the water unchanged to 20 points down, and closed | not reports: Cattle-Receipts, 1,000; ship- | will help to clean the clothes on wash days. THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at trequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hunearly as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, an i turnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year, contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
